29	The Story Behind Von Duprin	14:00

Section 2: Online Product Courses

To find these custom-made courses, once on the Learning Center, under the “Browse for Training” widget, click on the category “Product Training by Allegion US Training Team” for the alphabetical listing of the courses below and the applicable videos above. Or, use the Search function to find a particular course.

	Online Course Title	Estimated Time (minutes)	Description
1	Credential Choices	30	How does one decide which type of access control credential is best for a facility? Start by learning about the options available and the particular advantages and limitations of each credential type
2	Electricity: Speaking the Language of Electricity in Sales	45	This course is designed to help you become better acquainted with the language of electricity in conversations with your customers. It teaches the basic terms and components associated with our electronic security products.
3	Electricity: Speaking the Language of Electricity in Service	45	This course is designed to help you be more comfortable using the language of electricity to identify common field problems.
4	Falcon: This Is Your Exit	30	This course will introduce you to the Falcon 24 Series and 25 Series Exit Devices.
5	How Smart Is Your Card?	25	This course will help you understand the technical differences between proximity and smart cards. It will also provide information that supports how to address common concerns and share information on smart cards and proximity cards with key stakeholders.
6	Introduction to Allegion in the US Market	15	Designed for individuals new to the door hardware, door, and access control industry, this course introduces the learner to the US market and how Allegion’s major brands fit within this market.
7	It’s More than a Door: Computer Room	45	What kind of card will best meet the needs of your facility?
8	It’s More than a Door: Delayed Egress	45	This course walks learners through the pre-purchase steps in retrofitting an opening to add delayed egress.
9	It’s More than a Door: Main Entrance	45	This course walks the participant through the pre-purchase steps in retrofitting the main entrance to a school to add accessibility and access control.
10	It’s More than a Door: Remote Door	45	This course guides learners through the pre-purchase steps in retrofitting a remote opening on a campus to add security. The course addresses these five steps: Ask Questions, Look at the Opening, Write a Description of Operation, Draw the Solution, and Confirm the Solution with the Customer.
11	Online Workout: Do the Door Closer Workout*	60*	Use this ‘online workout’ to see what you already know about closers and to learn some new things along the way. This course takes you through a series of questions related to closers, providing you with hints as to where you can find the answers if you need a little help. This ‘workout’ is not a test—the system tells you if your answers are correct, but it doesn’t keep score.

12	Online Workout: Do the Doors and Frames Workout*	60*	Use this 'online workout' to see what you already know about Steelcraft hollow metal doors and frames and to learn some new things along the way. This course takes you through a series of questions related to doors and frames, providing you with hints as to where you can find the answers if you need a little help. This workout is not a test—the system tells you if your answers are correct, but it doesn't keep score. Complete this workout at your own pace, too!
13	Online Workout: Do the Electrified Hardware Workout*	60*	Use this 'online workout' to see what you already know about electrified hardware and to learn some new things along the way. This course takes you through a series of questions related to electrified hardware, providing you with hints as to where you can find the answers if you need a little help. This 'workout' is not a test—the system tells you if your answers are correct, but it doesn't keep score.
14	Online Workout: Do the Exit Device Workout*	60*	Use this 'online workout' to see what you already know about exit devices and to learn some new things along the way. This course takes you through a series of questions related to exit devices, providing you with hints as to where you can find the answers if you need a little help. This 'workout' is not a test—the system tells you if your answers are correct, but it doesn't keep score.
15	Online Workout: Do the L & ND Series Workout	60*	Use this 'online workout' to see what you already know about the Schlage L and ND Series and to learn some new things along the way. This course takes you through a series of questions related to the L Series mortise locks and ND Series cylindrical locks, providing you with hints as to where you can find the answers if you need a bit of help. The "workout" is not a test - you will be told if you have the questions correct but no score is kept.
16	Residential Essentials 1.1 - Introduction	5	Part of our Residential Essential series, this course offers an introduction to the Schlage Essentials learning series and provides basic information on series structure, course navigation, features and content. Learners should begin the series by viewing this module first.
17	Residential Essentials 1.2 - Lockology	15	This course describes common industry terms and concepts providing foundational knowledge that will be helpful as you progress through further courses
18	Residential Essentials 2.2 – Schlage Electronic Locks Overview	10	Summarizes Schlage residential electronic locks including; connected smart deadbolts, keyless touch and keypad locks. Participants will learn how to identify and differentiate locks by features and capabilities. Completing this course will provide a basis for more detailed learning about these locks.
19	Residential Essentials 3.1 – Mechanical Deadbolts	20	An in-depth look at Schlage Residential mechanical deadbolts. Topics covered include: product selection, application, features and installation.
20	Residential Essentials 3.2 - Handle Sets	25	An in-depth look at Schlage Residential Handlesets. Topics covered include: product selection, application, features and installation.
21	Residential Essentials 3.3 – Schlage Keyed Entry Locks	20	An in-depth look at Schlage Residential Keyed Entry Locks. Topics covered include: product selection, application, features and installation.

22	Residential Essentials 3.4 - Schlage Privacy Locks	20	An in-depth look at Schlage Residential Privacy Locks. Topics covered include: product selection, application, features and installation.
23	Residential Essentials 3.5 - Schlage Passage Locks	20	An in-depth look at Schlage Residential Privacy Locks. Topics covered include: product selection, application, features and installation.
24	Residential Essentials 4.1 - Schlage Keypad Locks	20	An in-depth look at the Schlage Keypad Deadbolt and Lever. Topics covered include: product selection, application, features, installation and programming.
25	Residential Essentials 4.2 - Schlage Touch Keyless Locks	20	An in-depth look at the Schlage Touch Keyless Touchscreen Deadbolt and Lever. Topics covered include: product selection, application, features, installation and programming.
26	Residential Essentials 4.3 - Schlage Connect & Sense Deadbolts	20	An in-depth look at the Schlage Connect and Schlage Sense™ Smart Deadbolts which both provide remote access, operation and management of a home. Topics covered include: product selection, application, features, wireless technologies, installation and programming.
27	Residential: Rekeying Schlage Residential Locks	20	This self-study course demonstrates the assembly and disassembly of common residential lock functions, the rekeying process and offers a comprehensive study of the internal working of locks. It is designed for use in conjunction with a Schlage B60 deadbolt and Schlage rekeying kit (or the Schlage Discovery Learning Kit # 40-229, which contains all of the required materials) to allow an independent learner to successfully rekey a lock cylinder.

IMPORTANT NOTE about COMPLETED COURSES and VIDEOS

To view completed courses or videos in the Allegion Learning Center, or to retake a completed course or video, click on “Your Transcript” widget, then change the drop down box from “Active” to “Completed” to see the list of courses and videos you have already completed. You are welcome to repeat all programs as many times as you like.
